

9. 각 괄호 안에서 어법에 맞는 것은? [11 년 고 3 9 월 모의수능]

You have to pay close attention to someone's normal pattern in order to notice a deviation from it when he or she lies. Sometimes the variation is as (A) **[subtle / subtly]** as a pause. Other times it is obvious and abrupt. I recently saw a news interview with an acquaintance (B) **[who / whom]** I was certain was going to lie about a few particularly sensitive issues, and lie she did. During most of her interview she was calm and direct, but when she started lying, her manner changed dramatically: she threw her head back, laughed in 'disbelief,' and shook her head back and forth. It is true that the questions (C) **[dealt / dealing]** with very personal issues, but I have found that in general, no matter how touchy the question, if a person is telling the truth his or her manner will not change significantly or abruptly.
